

Setting up your iPhone to use MyChart & Zoom

If you will be using your iPhone to access MyChart and Zoom for Telemedicine visits, please follow the following steps.

Download the MyChart App

If you have not done so previously, you can download the MyChart App onto your phone or device

1. On your iPhone go to the **App Store** .
2. Click on the Search button in the lower right hand corner.

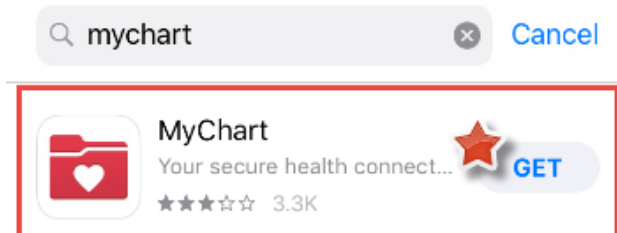

3. In the search bar type in **MyChart**. Click **Search**.

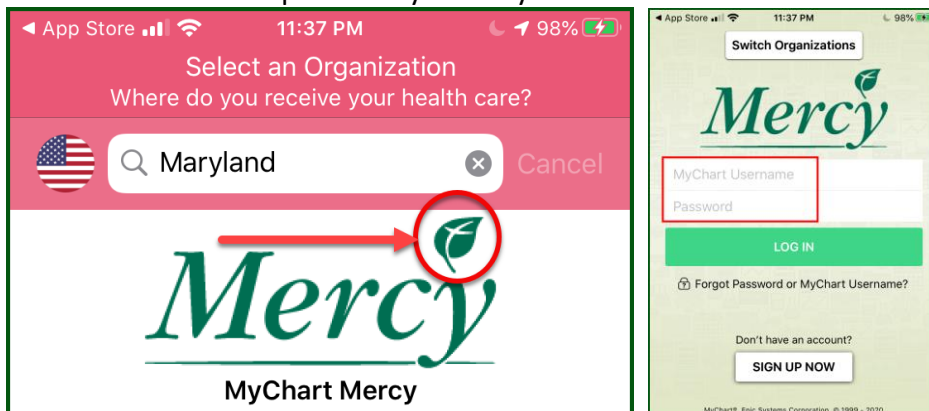

Search

4. MyChart will then show on your screen. Click **GET**.

5. The MyChart App will allow you to access your health information right on your phone
6. MyChart also allows you to link multiple Health Care Facilities to one account
7. Once the App is downloaded, you can open and log in with your Mercy Log in
8. **Note:** The first time you log in from this device you will be prompted to accept the Terms and Service and may be prompted to select your Organization.
 - a. Make sure to pick Mercy in Maryland – look for the Green Leaf!

Download the Zoom App

If you have not done so previously, you will need to download Zoom App prior to starting the visit.

1. On your iPhone go to the **App Store** 
2. Click on the Search button in the lower right hand corner.

3. In the search bar type in **Zoom Cloud Meetings**. Click **Search**.

Search

Q App Store

4. **Zoom Cloud Meetings** will then show on your screen. Click **GET**.

5. Once the Apps are installed you will **Begin Visit** from your MyChart application which will launch you directly into the visit
